企业文化  
Enterprise Culture

## 同臣倡导 勤奋、诚信、开拓、创新 的企业文化

Techase take "Diligence, Integrity, Development, Innovation" as our enterprise culture

- 勤奋敬业，创造人生价值和社会价值  
Diligence with work ethic , create life value and social value
- 真诚守信，树立一诺千金的企业品牌  
Sincere and trustworthy, keep our promise strictly to establish our corporate brand with Integrity
- 努力开拓，企业和员工共创美好未来  
Development with endeavor , the enterprise and employees together to create a better future
- 创新梦想，驱动企业可持续发展壮大  
Innovation with dreams, driven sustainable enterprise development

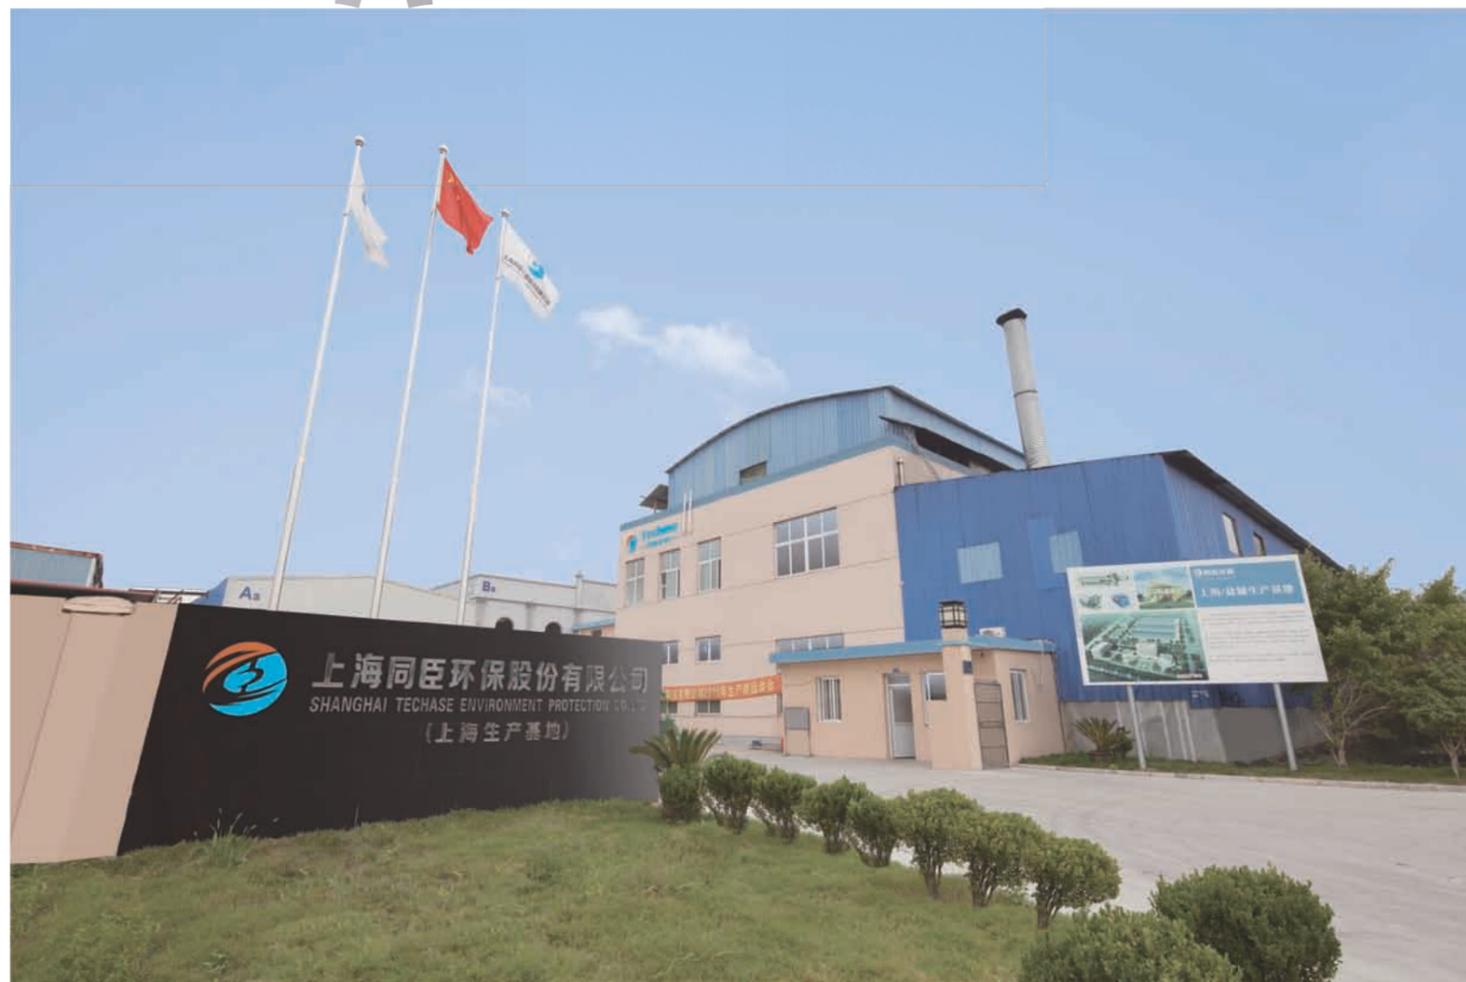

激情 · 分享 · 共赢

## 生产能力

同臣环保生产制造能力雄厚，并拥有上海和江苏盐城双生产基地。其中上海生产基地位于上海市嘉定工业区，盐城生产基地位于江苏省盐城市中国环保科技城，总占地面积200亩。

## 质量为先

公司始终将产品质量视为生命。从产品研发、原材料采购，到生产制造、出厂检验都已建立完善的流程控制和管理体系。精良的机械加工设备、完善的检测手段、严格的过程控制措施及系统的质量保证体系为生产高品质的固液分离设备提供了保证。

## 资质荣誉 Honors & Certificates

上海同臣环保股份有限公司研发实力雄厚，注重自主技术创新，并成立了同济大学-同臣环保水处理设备研发中心。中心研发团队由同济大学专家教授领衔，90%的研发人员拥有硕士以上学历。

同臣环保以水处理设备研发中心为平台，与德国达姆施塔特工业大学等机构进行研发合作，目前已推出了叠螺式污泥脱水机、超高压弹性压榨机、竖片纤维滤布滤池、转盘纤维滤布滤池、容压污泥深度脱水系统和黑臭水体生态治理等设备及系统解决方案。

Techase have strong R&D capability and focus on technological innovation. We co-founded the Tongji University-Techase Environment Water Treatment Equipment Research Center. The R&D team of the center is led by the professors of Tongji University,90% of the staff of which hold master degree or above.

Taking the Water Treatment Equipment Research Center as platform, Techase carried out the R&D cooperation with the Technische Universität Darmstadt and other agencies and have developed The Techase Multi-plate Screw Press, Super Elaspres Filter Press, Vertical Fiber Cloth Media Filter, Fiber Rotary Disc Filter, the Elaspres Advanced Sludge Dewatering System and Black and Odorous Water Ecological Management etc.

公司简介  
About Us

## 同臣环保

上海同臣环保股份有限公司是同济大学在环保领域重点投资的国家级高新技术企业以及AAA级守合同重信用企业，依托同济大学在环境保护、先进机械制造等领域的技术优势和行业优势，公司核心业务定位为水处理设备研发制造、污泥处理处置与资源化和环保咨询服务，其中核心产品包括叠螺式污泥脱水机、超高压弹性压榨机、竖片纤维滤布滤池、转盘纤维滤布滤池、容压污泥深度脱水系统和黑臭水体生态治理等设备及系统解决方案。

同臣环保倡导具有创业和分享精神的企业文化，并通过持续创新，不断满足客户需求。我们将始终站在环保技术发展的最前沿，不仅为客户提供优质的产品设备，更提供创新、专业的系统集成服务。

# About Us

Shanghai Techase Environment Protection Co, Ltd, which is the National High-Tech Enterprise and AAA Keeping Contracts and Promises Enterprise, is key invested by Tongji University. With relying on the technological advantages of Tongji University in fields of environmental protection and advanced mechanical manufacture, the main business of Techase include developing and manufacturing of water treatment equipment, sludge treatment and providing environmental consulting service. The main products are the Techase® Multi-plate Screw Press, Super Elaspres Filter Press, the Vertical® Fiber Cloth Media Filter, Fiber Rotary Disc Filter, the Elaspres® Advanced Sludge Dewatering System and Black and Odorous Water Ecological Management.

Techase has built two manufacturing bases which are in Shanghai and Yancheng. Our company has strong capability of manufacturing. We have not only established perfect process control and management systems, but also strictly implements ISO9001:2008 quality control system.

Techase advocates the enterprise culture which is entrepreneurship and sharing. Our company will through continuous innovation to meet the requirements of customers. We will stand at the forefront of environmental technology and not only provide customers with high quality products and equipments but also provide innovative and professional system integration service for the customers.

中央政治局常委、政协主席俞正声，中央政治局委员、国务院副总理刘延东，人大常委会副委员长、民进中央主席严隽琪等领导关心我公司发展。

我公司负责人向国家发改委副主任连维良（左一）汇报公司发展情况

同济大学领导非常关心我公司的发展，图为原同济大学党委书记，现中央组织部部务委员（副部长级）兼干部二局局长周祖翼（右二），同济大学产业管理办公室主任高国武（右一）在听取我公司工作汇报，并对我公司取得的成绩给予充分肯定。

公司主要业务为水处理设备研发制造、污泥处理处置与资源化服务。核心产品包括叠螺式污泥脱水机、超高压弹性压榨机、竖片纤维滤布滤池、转盘纤维滤布滤池、容压污泥深度脱水系统及黑臭水体生态治理等。

公司以核心设备技术为依托，为用户提供最优化的解决方案，提供包括方案设计、设备制造、系统集成、安装调试、运营维护等服务，并保证优良的售后服务。

公司将发挥在污水和污泥处理领域核心技术和市场地位的领先优势，致力于成为国内最具竞争力的污水和污泥处理设备解决方案提供商。

The major business of our company is researching, developing and manufacturing of water treatment equipment, treatment and disposal of sludge as well as the service of resource recovery. Our core products are Techase® multi-plate screw press, Super Elaspess Filter Press, Vertical® fiber cloth media filter, Fiber Rotary Disc Filter, ELASSPES® advanced sludge dewatering system and Black and Odorous Water Ecological Management etc.

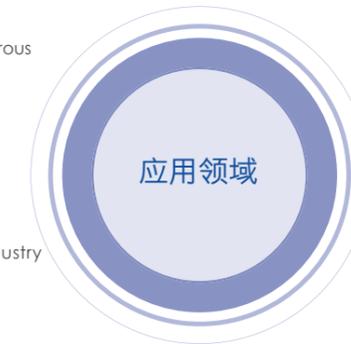

Relying on the core product technologies, we provide customers with most optimized solution that includes the service such as project design, manufacture of equipment, system integration, installation, debugging, and maintenance and so on. Furthermore, we have excellent after-sale service.

We will bring our superiority of core technologies and market status in the fields of sludge sewage treatment technology into full play and make our efforts to become the most competitive provider of sludge sewage equipment and solutions in China.

### 全面的售前支持 All-round Pre-sale Technical Support

在用户购买产品之前，我们的销售人员和技术人员将为您提供全面的咨询服务，根据您在工程建设中的需求向用户推荐最适合的产品。

Before buying the products, our sales staff and engineers will provide users all-round consulting services and help to choose the most suitable type based on the requirements of customers.

### 专业的售中服务 Professional In-sale Service

在用户购买产品的过程中，我们为您提供专业优质的售中服务，包括产品选型、工艺优化、来样分析、现场实验方案设计等。

During buying the products, we provide you with professional In-sale service, including type selection, process optimization, sample analysis, field test and design service etc.

### 完善的售后服务 Completed After-sale Service

在用户购买产品之后，可以享受同臣环保完善的售后服务。

After buying our products, customers can enjoy Techase's completed after-sale service.

- ① 设备现场调试安装  
Installation and commission on-site
- ② 设备操作人员培训  
Equipment operator training
- ③ 保修期内免费维修或更换  
Free for repair or replacement during warranty period

### 专业的服务团队 Professional Service Team

我们拥有一批高素质的、具有丰富理论与实践经验的服务支持团队，能够为用户提供有价值的技术服务和支持。

We can provide customers excellent after-sales service and technical support by a professional service team who are all high-caliber, theoretical and having rich practical experience.

### 快速的反应体系 Quick Response System

对于客户各种方式的咨询、反馈和疑问，我们将会在第一时间内向客户提供满意的答复或安排，及时解决产品在使用过程中出现的各种技术问题，保证设备连续、高效运行。

As responding to customers' inquiries, feedbacks and questions, we will give customers a satisfactory answer or arrangements as soon as possible, solve the problems in the using process on time, ensure the machine to operate continuously and effectively.

### 严格的生产质量控制 Strict Manufacturing Quality Control

同臣环保具有雄厚的制造能力，设备制造部拥有标准化的生产车间，配备CNC、大型车床、铣床、折弯机、剪板机、激光切割机、氩弧焊等先进的机械加工设备，目前已形成从机械加工、焊接、热处理，到装配、检测等配套齐全的生产体系。

Techase have strong capability of technical development and manufacturing. The manufacturing department has standard production workshop and has been equipped with various advanced mechanical processing equipments, such as CNC, large lathes, milling, bending press, cutting plate machine, laser cutting machine and argon arc welding. At present, our company has formed a completed manufacturing system including mechanical processing, welding, heating processing, assembling, inspection, etc.
